

Re. Tender for Vacuum Valves for Drainage System:

Answers to Questions, Additional Information, Changes and Corrections

Project: Vacuum Drainage System, Søndervig
Project number: 70.1090.01
Project Manager: Morten Møllnitz

Prepared by: Bent Raben
Date: 2020-03-31

1. Introduction

The present document contains quotes of questions received from Tenderers during the tender period and the Contracting Entity's answers to the questions.

Furthermore, the document comprehends also (when relevant) possible additional information to Tenderers and changes or corrections to the Tender Documents.

The document is made available to the Tenderers by uploading it to www.udbud.dk along with rest of the Tender Documents. Any information given in this document is a prevailing part of the Tender Documents.

The document might be updated during the entire tender period until 6 days prior to the deadline for submission of tenders. Until this deadline, it is the responsibility of the Tenderers to check whether new information is made available, please refer to the Instructions to Tenderers, chapter 7.

2. Answers to Questions

2.1. Question 1

Should any technical submittals be included with the tender form to show compliance with the full tender specifications?
